SEVA KAVALENKA

FRONT-END DEVELOPER

+48 571-371-935 | seva.kavalenka@gmail.com | LinkedIn | GitHub

With a BA in Linguistics and a background in translation, I've always balanced structure and creativity. My passion for problem-solving led me to frontend development, where logic meets design. After completing a React course, I became captivated by building clean, user-friendly interfaces, and I am now seeking a React developer role.

SKILLS

- React, Git, GitHub
- HTML, CSS, JavaScript (ES6+)
- English (Fluent), Russian (Native), Polish (Beginner)

PROJECTS

MOVIE BUFF QUIZ (LIVE DEMO)

A fun and interactive quiz game that tests users' cinema knowledge with five movie-related questions.

- Developed a responsive and minimalistic UI using React, JavaScript (ES6+), and CSS.
- Implemented dynamic quiz logic with instant feedback.
- Designed an intuitive user experience with multiple-choice questions and score calculation.

WEATHER APP (LIVE DEMO)

A minimalistic weather app providing real-time weather data for any city.

- Developed a responsive and mobile-friendly UI using React, JavaScript (ES6+), and CSS.
- Integrated OpenWeatherMap API to fetch and display live weather conditions, temperature, and sunrise/sunset times.
- Designed a clean, distraction-free interface for an improved user experience on both mobile and desktop.

EDUCATION

FRONT-END DEVELOPMENT EDUCATION | 2024–2025

Self-paced learning through online courses on HTML, CSS, JavaScript, and React. Gained experience in Git, GitHub, API integration, and responsive design.

MINSK STATE LINGUISTIC UNIVERSITY | 2013–2018
BA in Translation and Linguistics (Interpreting and Translation Department)

EXPERIENCE

FREELANCE TRANSLATOR, EDITOR, AND SUBTITLER| SINCE 2015

- Translated, subtitled, and QCed audiovisual content for Netflix, HBO, Apple Fitness+, Amazon Prime, and Paramount.
- Provided linguistic services for five international film and theater festivals.
